

STATE OF CONNECTICUT

DEPARTMENT OF SOCIAL SERVICES

PERSON-CENTERED MEDICAL HOME PROGRAM QUALITY PERFORMANCE MEASURES

Effective January 1, 2015

Pediatric Quality Measures

- Well-child visits in the first 15 months of life – 6 or more visits
- Well-child visits in the third, fourth, fifth and sixth years of life
- Adolescent well-care visits
- Percentage of eligible beneficiaries ages 2-21 with at least one dental visit during the measurement year. The visit must be with a dentist or dental hygienist.
- Annual percentage of asthma patients (ages 2-20) with one or more asthma-related emergency department visits
- ~~Use of appropriate medications for people with asthma, with several age ranges 5-11, 12-18 and total 5-18 (**Measure Retired**)~~
- Emergency department usage (excluding mental health and chemical dependency services). The age 0-19 breakout of this measure will be used.
- Developmental screening in the first three years of life. Total of three age ranges will be used.
- PCMH CAHPS Survey (Parent or Guardian)

Adult Quality Measures

- ~~Adults ages 18-75 with a diagnosis of Type I or Type II diabetes who received at least one LDL-C screening during the measurement year (**Measure Retired**)~~
- Adults ages 18-75 with a diagnosis of Type I or Type II diabetes who received at least one eye screening for diabetic retinal disease in a two year period
- ~~Adults ages 18-75 discharged alive for AMI, coronary artery bypass graft or percutaneous coronary interventions of the year prior to the measurement period or who had a diagnosis of ischemic vascular disease during the measurement period and the year prior to the measurement period who had an LDL-C test during the measurement period. (**Measure Retired**)~~
- Post-Admission Follow-up: Percentage of adults age 21-75 with an inpatient “medical” or psychiatric admission with a claim for post-admission follow-up with a physician, PA, or APRN within seven days of the inpatient discharge. Medical admissions are defined as all admissions that are not maternity or surgery related.
- ~~Use of appropriate medications for people with asthma, with several age ranges 19-50, 51-64 and total 19-64 (**Measure Retired**)~~
- Psychiatric Medication Management - Percentage of adults given a new psychiatric diagnoses, and medication, by a PCP who received a follow-up visit within 30 days
- Hospital Readmissions - Total readmission rate within 30 days after discharge (behavioral and physical health). The age 21-64 breakout of this measure will be used.
- Emergency department usage (excluding mental health and chemical dependency services). The age 20 and above breakout of this measure will be used.
- PCMH CAHPS Survey
