Questions? Need assistance? Call the HP Provider Assistance Center Mon.–Fri. 8:00 a.m. – 5:00 p.m.
Toll free 1-800-842-8440. Or write to HP, PO Box 2991, Hartford, CT 06104
Program information is available at www.ctdssmap.com

A new brand or generic entry into an existing PDL class will only appear if it is preferred. Preferred brand name products with a non-preferred generic equivalent will be designated in **bold print**.

Prior Authorization (PA) is required when any *new* or *refill* prescription is filled for a non-preferred product for the first time.

Providers are urged to be proactive in switching members to a preferred medication, or in obtaining PA, when appropriate. If a claim for a non-preferred medication is submitted and no PA is on file, the pharmacy will receive a message that they should contact the physician to obtain a PA.

The pharmacist should consult with the prescriber to see if a preferred drug can be prescribed as an alternative, or explain that the prescriber must obtain PA from HP before a non-preferred medication can be dispensed.

Pharmacists will have the opportunity to dispense a **one-time, 14-day supply** of medication by entering in all 9's in the Prior Authorization Number Submitted field, NCPDP 462-EV, and a numeric value of "1" in the Prior Authorization Type field, NCPDP 461-EU.

Each time a 14-day supply of medication is dispensed the pharmacist should provide the client with a DSS authorized flier as described in Provider Bulletin PB 12-41. The flier notifies clients that (1) PA is needed for the prescription to be fully filled, (2) the 14-day supply is a one-time supply, and (3) they must contact the prescriber as soon as possible to arrange for PA for a full prescription to be filled.

PA forms can be found on the <http://www.ctdssmap.com> Web site. From the Home page, go to Information → Publications → PA forms → Pharmacy Prior Authorization Form; or to Pharmacy Information → Pharmacy Program Publications → Pharmacy Prior Authorization Form.

The full PDL is available on the www.ctdssmap.com Web site. From the Home page, go to Pharmacy Information > Preferred Drug List Information > Current Medicaid Preferred Drug List.

In addition to the standard PDL, an alphabetical listing of all preferred medications is also available on the Pharmacy page of the www.ctdssmap.com Web site. From the Home page, go to Pharmacy Information → Preferred Drug List Information → PDL Alphabetized Medication List.

The PDL formulary can also be downloaded and accessed for those providers who use e-Prescribing. For more information, visit www.surescripts.com or contact Surescripts directly at 1-866-797-3239.
